

# NICHOLAS GLEESE

## UX Designer

I strive to build meaningful connections between people and technology. I'm eager to apply myself to solving real-world challenges and create impactful solutions that make a difference in people's lives.

## EXPERIENCE

### UX Design Intern

Russell Herder | Minneapolis, MN | Feb 2024 - Present

- Create effective User Personas and audit user needs against current website on accounts to identify gaps.
- Ideate and iterate by wireframing web pages to reflect change in client strategy and support identified needs of the consumers

### 25B - Information Technology Specialist

US Army Reserves | St. Paul, MN | Apr 2019 - Present

- Setup, distributed, and maintained 4 Battalion communication devices and 10 accounts to high-ranking headquarters personnel through 3-weeks of in-field training, resulting in no communication deficiencies.
- Commanded convoy movement of 3 military vehicles and 10 personnel traveling over 100 miles between military installations. Destination was met on time and with 100% accountability.

### Security Monitor

UMN Campus Security | Minneapolis, MN | Aug 2021 - March 2024

- Proactively monitored multiple campus buildings to reduce risks to students, faculty, visitors and their property.
- Safely transported hundreds of students throughout campus through Campus Security Safewalk Service.

## EDUCATION

### Product Design; UX Track - Bachelor of Science

University of Minnesota | Minneapolis, MN | 2024

- Diverse coursework focused on human factors, sustainability, and diverse design practices.
- UX Design Track and focus

### US Army Officer Corp - Commission

University of Minnesota Army ROTC | Minneapolis, MN | 2024

- Program centered on tactical expertise, physical capability, and leadership competencies at levels of over 100 personnel
